

**Ordering Non-Stock Listed Material**

In support of field maintenance for MEDEVAC mission equipment, there are frequent requirements identified from units for non-stock listed parts. The lack of an NSN, however, does not preclude the unit from ordering the asset required via part number utilizing a DD Form 1348-6, DOD SINGLE LINE ITEM REQUISITION SYSTEM DOCUMENT. All DD Form 1348-6 requirements should be prepared, processed, and submitted by unit supply personnel and forwarded directly to the high priority requisition team, AMCOM Logistics Center (ALC), Redstone Arsenal, AL.

Unit submission of a completed DD Form 1348-6 ensures that asset demands are captured by the ALC Weapon System Teams (WST) as these requirements are not tracked within the Logistics Modernization Program (LMP) system like stock-listed material. Submission of a DD Form 1348-6 assists the ALC Item Managers in effectively researching all part number requisitions and identifying those that qualify for NSN assignment and procurement action. If a DD Form 1348-6 is not submitted and does not come through the proper supply channels, the asset demand is lost and can result in decreased mission readiness, delayed support to the requesting unit, longer procurement lead times, wrong assets being supported, and potential future sustainment impact to the H-60 MEDEVAC fleet.

When submitting a DD Form 1348-6 for non-stock listed material, please send to the following mailbox:

USARMY Redstone Arsenal AMCOM Mailbox IMMC-High Priority Requisitions  
[usarmy.redstone.amcom.mbx.immc-high-priority-requisitions@mail.mil](mailto:usarmy.redstone.amcom.mbx.immc-high-priority-requisitions@mail.mil).

If you have any questions regarding DD Form 1348-6 preparation, the submission process, or supportability of non-stock listed MEDEVAC parts, please contact Ms. Ashley Anderton, PD MEDEVAC, 256-955-2221, or by e-mail: [Ashley.O.Anderton.civ@mail.mil](mailto:Ashley.O.Anderton.civ@mail.mil)
